LeetCode

Education

NED University of Engineering and Technology

Bachelor of Science in Computer Science | CGPA: 3.41/4.00

October 2023 – July 2027

Karachi, Sindh

Adamjee Government Science College

Pre-Engineering | Grade: A-1

September 2021 – June 2023

Karachi, Sindh

Leadership & Teaching Experience

Teaching Assistant

August 2025 – Dec 2025

NED University of Engineering & Technology

Karachi, Pakistan

- Conducted weekly sessions on Data Structures and Algorithms, covering topics such as arrays, linked lists, trees, and graphs.
- Solved and discussed LeetCode problems to strengthen students' coding and analytical skills.

Section Leader – Code in Place

April 2025 – May 2025

Stanford University (Remote)

- Mentored a group of students in Python programming as part of a global initiative by Stanford University.
- Led weekly sessions, provided feedback on assignments, and guided students in problem-solving.

Projects

Diabetes Prediction System

- Developed a machine learning model to predict diabetes using clinical dataset features.
- Applied Decision Tree classifier and handled class imbalance using SMOTE to improve model performance.

Folio – Document Intelligence System | RAG, LangChain, ChromaDB, Streamlit

- Built a Retrieval-Augmented Generation (RAG) system that converts static documents into interactive conversational knowledge bases.
- Implemented semantic search using sentence-transformers embeddings and ChromaDB vector database for persistent indexing.

Tic-Tac-Toe Game | JavaScript, HTML, CSS

- Developed an interactive Tic-Tac-Toe game using JavaScript with a responsive web interface.
- Focused on DOM manipulation and event handling for real-time user interaction.

Achievements

Bronze Medalist, ICPC Asia Regional 2025

2nd Position, NED DSA Project Competition

Bronze Medalist, Ignite Competitive Programming Competition 2025

Competitive Programmer, Solved 500+ problems on LeetCode & Codeforces

Skills

Programming Languages: C/C++, Python, JavaScript

Web Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), REST APIs

Computer Science Fundamentals: Object-Oriented Programming, Operating Systems, Computer Networks, DBMS

Tools & Platforms: Git, GitHub, Linux, VS Code, Postman
